The SafeWise Report Announces the 20 Safest Cities in Oregon

The SafeWise Report released its "20 Safest Cities in Oregon" report on October 17, 2016. To compile this report, SafeWise used the most recent FBI crime data from 2014 to analyze and rank these cities, which all have a minimum population of 3,000 people.

SafeWise security analyst, Alexia Chianis, said, "It's impressive to see Oregon's crime average is 75 percent below the national average. A lot can be learned from Oregon's strong community policing and the efforts of their concerned citizens."
